The countries of the Middle East and North Africa are teeming with talented contemporary artists: come and discover them from October 25 to 27, 2025 at the Menart Fair, the international art fair organized at Galerie Joseph-Turenne, in the Marais district of Paris.

It's back for another edition: plunge into the heart of **Middle Eastern** and **Maghreb** cultures with the international **Menart Fair**. Join us from **October 25 to 27, 2025** at **Galerie Joseph-Turenne**, in the 3rd arrondissement, to discover talented young artists from Morocco, Algeria, Tunisia, Egypt, Syria, Lebanon, Palestine, Kuwait, Jordan, Iraq, Iran, Saudi Arabia, Qatar, the United Arab Emirates and Yemen.

This **original art fair** allows us to admire the innovative work of numerous artists from various countries in the Levant, the Arab-Persian Gulf and North Africa. For this sixth edition of Menart Fair, **some thirty art galleries** have carefully selected the best of modern and contemporary artists. These creators are photographers, painters, sculptors, video artists... They have come together for a moment of sharing and communion around **modern and contemporary art**, a universal language that creates the most beautiful links between people.

For this sixth edition, Menart Fair ensures perfect **parity**: 50% of the artists exhibited are women, 50% are men, to create a more inclusive and diverse space. Often renowned in their home countries, these artists have the opportunity to make themselves known to the French public. Art lovers have an unprecedented opportunity to discover original, singular creators, bubbling with ideas and driven by their passion.

A special program is planned for this 2025 edition, details of which can be found on the fair website. Among the highlights are prepared **exhibitions**, **artistic performances**, conferences **and** a space dedicated to video. A new area will also be showcased at the fair: a "no-profit" zone where you can admire works never before shown in France, curated by the fair's partner museums.

Menart Fair takes place this year in October, joining the festivities of Art Week in Paris. During these autumn days, art lovers can take advantage of the major contemporary art event **Art Basel**, as well as a number of other fairs and shows featuring **contemporary creations**.

By the way, where does the name of this fair come from? "MENA" represents the participating countries (Middle East / North Africa). We mixed this acronym with the word art, which is at the heart of everything we do. The aim of the event is to showcase the **artistic wealth of** these countries, which are often forgotten by the Western art world.

Come and discover these exceptionally talented artists at this one-of-a-kind fair!
