Menart Fair 2025 : Contemporary Art from the MENA Region Returns to Paris with the Power of Softness

A unique art fair dedicated to Middle Eastern and North African art

From October 25 to 27, 2025, Menart Fair celebrates its 6th edition at Galerie Joseph-Bureau in Paris. As the only European art fair exclusively dedicated to modern and contemporary art from the MENA region (Middle East & North Africa), it has become a must-attend event during **Paris Art Week**, attracting collectors, institutions, and art lovers from across the globe.

With around thirty galleries representing a dozen countries, the fair offers a carefully curated panorama of today's most exciting artists' voices from the MENA region.

2025 Theme: The Apology of Softness

Following a bold 2024 edition dedicated to women artists, Menart Fair highlights in 2025 a theme both poetic and political: **softness**.

In times of conflict and global tension, softness emerges not as fragility but as a **form of resistance, resilience, and subtle power**. Through painting, sculpture, photography, and performance, the selected artists embody this paradoxical strength.
