Menart Fair 2025

October 25-27

Now officially part of Paris Art Week, [Menart](#) returns this year for its sixth edition with work reflecting this year's theme, softness, which looks at the balance between vulnerability and power. The only international art fair in Europe dedicated to modern and contemporary art from the MENA region (the Middle East and North Africa), it will bring 30 galleries from a dozen countries to Galerie Joseph for discovery and meaningful exchange between institutions, art lovers, galleries and artists. Work on view will highlight the strength and power that is often present in softness and how it manifests in different contexts.
