the Artling

Your Guide to Art Basel Paris 2026

For its fifth edition, Art Basel Paris, led by new Director Karim Crippa, places Paris at the heart of the fair as an essential part of its artistic and cultural identity. The 2026 edition reflects the depth of Paris' gallery ecosystem while extending the fair's presence into the city.

While Art Basel unfolds under the iconic glass roof of the Grand Palais, a tidal wave of satellite art fairs, major museum retrospectives, and off-site public programs are completely reshaping the city. Here are the highlights for this year you can't afford to miss!

Menart Fair

Founded in 2021 by Laure d'Hauteville, Menart Fair is a unique art fair in Europe fully dedicated to modern & contemporary art from the MENA region (Middle East & North Africa). Each year, it brings together a carefully curated selection of around forty galleries, showcasing the richness, diversity, and creative vitality of artists from the region and their diasporas.

Menart Fair celebrates its 7th edition in the heart of Paris, during "Paris Art Week", centered around an essential question: WHERE IS HOME? The galleries representing artists from the Middle East, North Africa, and their diasporas will open this sensitive and vertiginous reflection… inviting each of us to redefine our own center of gravity.
